

The 2003 Clubmans Videos

Colin Jackson and Marcus Bicknell are combining their offer for the first time to give you an extended choice of videos of the 2003 Clubmans season.

1) Colin's first compilation video features all of the season's races in the MG XPower Clubmans Cup plus the Birkett 6-hour race and the Haggispeed Memorial race. Some of the in-car footage is edited in to Colin's montage, so you're bound to have the best of the action from the edge of the circuit and from the in-car camera. Colin's footage is shot in analogue video so this title is on VHS Cassette tape and not available on DVD.

2) Colin's second compilation video features many of the season's races in the FuelForce Classic Clubmans Championship plus the Haggispeed Memorial race and is available on VHS Cassette tape, not on DVD.

3) Since mid-2002 Marcus's digital video camera has been deployed on a variety of cars (including Peter Richings, James Lindley, Adrian Brown and Matthew Slinn), with tremendous results (except the half dozen races where the camera packed up due to vibration, rain and crashes!). 13 MG XPower Clubmans Cup races, of which 8 were in 2003, are reproduced in full on this compilation DVD, playable on your DVD player and TV, or on your PC if it is DVD equipped. Your front page shows a menu of the available races. You can select each one in turn, watch the whole thing, or fast forward to the juicy moments.

All 13 races come on one DVD with menu functions, in a jewel case with coloured sleeve and notes on each race.	7) Snetterton Race 2 - James Lindley - 14 th September
	8) Donington Park - Adrian Brown - 5 th October 2003. <i>"Russell Munns in the smoky bacon Kelly/Brown sandwich."</i>

3) Matthew Slinn's extraordinary performance in the 2nd MG XPOWER Clubmans Cup race at Croix-en-Ternois in July was all captured on the car-mounted video camera. Matthew races from last on the grid to second place only to suffer a breakdown near the end. But the overtaking through the field is a joy to behold, as his the beating he gives his brakes and the gearbox. Now you can be the proud owner of the DVD of this footage in full digital quality. Just think, you can pore over it to get some driving tips (or not as the case may be), you could give it to your wife for her birthday, or you could just keep it to replay endlessly when you're even older and sadder than you are now. If you like it sideways, if you like it on the ragged limit, or if you like to see lots of cars being overtaken... this is the video for you.
